CONTENTS FOR

FLUID MECHANICS–Soviet Research

Volume 2, Nos. 1-6, 1973

Number 1

i **Mikhail Dmitriyevich Millionshchikov (On his 60th Birthday)**

1 **Concerning the Calculation of Parameters of a Laminar Jet of an Incompressible Fluid Spreading in a Cocurrent Gradient Flow along a Moving Surface**
A. M. Mkhitaryan and R. A. Antonyuk

8 **Tables of State Functions of Gaseous Working Fluids**
Yu. A. Mochalov

13 **Some Regularities of the Flow of the Mixed Boundary Layer in Entry Lengths of Rectangular Ducts**
V. M. Legkiy and A. S. Makarov

19 **Effect of Gas Flow and Separating Particles on the Motion of a Melt Film in a Cyclone Chamber**
B. A. Sokolov and Yu. V. Troyankin

23 **The Flow of a Twisted Submerged Jet of Viscous Incompressible Fluid**
A. T. Granik

30 **Propagation of an Annular Flow in a Cylindrical Duct**
A. A. Al'bitskii

36 **Jet Sublayer of a Flow with a Free Surface Expanding in a Bounded Space**
N. G. Poznyaya and B. S. Gonchav

42 **Investigation of the Turbulent Flow Structure in the Inlet Sections of Smooth and Rough Pipes**
A. G. Marchenko

51 **Use of a Local Mass-Transfer Sensor to Estimate the Turbulence Characteristics of the Near-Water Layer of an Air Flow**
I. K. Nikitin, V. S. Nishchuk and A. M. Timakhovich

55 **Measurement of the Turbulence Structure of the Thermally-Stratified Air-Flow Layer near a Water Surface under Wind Gust Conditions**
V. I. Khadan, A. G. Marchenko, I. K. Nikitin, V. S. Nishchuk, and A. G. Stetsenko

60 **Some Estimates of the Accuracy of Defining Flow Turbulence Characteristics by the Flow-Visualization Method**
E. V. Zalutskii

69 **Investigation of Hydraulic Losses in Water Flows with Polymer Additives**
A. N. Shabrin

73 **Instrument for Determining the Adiabatic Exponent of Gases**
M. A. Peshkin

76 **A Technique for Measuring Small Temperature Variations**
F. F. Lezhenin

80 **An Investigation of Phase Changes in Swirling Flows of Supersaturated Vapor**
M. E. Deich, G. A. Filippov, G. A. Saltanov, Yu. A. Laukhin and V. A. Sivoborod

V. I. Khadan, A. G. Marchenko, I. K. Nikitin, V. S. Nishchuk, and A. G. Stetsenko

60 **Some Estimates of the Accuracy of Defining Flow Turbulence Characteristics by the Flow-Visualization Method**
E. V. Zalutskii

69 **Investigation of Hydraulic Losses in Water Flows with Polymer Additives**
A. N. Shabrin

73 **Instrument for Determining the Adiabatic Exponent of Gases**
M. A. Peshkin

76 **A Technique for Measuring Small Temperature Variations**
F. F. Lezhenin

80 **An Investigation of Phase Changes in Swirling Flows of Supersaturated Vapor**
M. E. Deich, G. A. Filippov, G. A. Saltanov, Yu. A. Laukhin and V. A. Sivoborod

89 An Investigation of the Hydrodynamics, Vibration, Damage and Destruction of Rods in Vertical Tubes with Various Entry Conditions of the Stream
M. S. Fomichev, I. Ya. Emel'yanov and B. F. Berzina
98 The Hydrodynamic Influence of Polymer Additives in the External Flow Around a Body
B. I. Puris, V. A. Kisurin, M. B. Smol'skii, V. M. Glebov, V. A. Zolov, and V. K. Nedbal'skii
100 The Drag of Bodies in an External Flow of Strongly Non-Newtonian Fluids
V. I. Begachev, V. P. Glukhov, L. N. Braginskii, and N. G. Pavlov
104 Capillary Viscosimeter Flow of Cross-Linked Fluids
S. A. Vlasov and V. N. Kalashnikov
108 The Long-Range Nature of Turbulent Submerged Jets of Polymer Solutions
S. A. Vlasov, V. N. Kalashnikov, B. F. Mul'chenko, B. S. Rinkevichyus, and V. I. Smirnov
112 Some Questions on the Method of Investigating the Viscosity of Blood with the VIR-70 Micro-Viscosimeter
A. N. Sundukov, V. A. Shabanov, A. P. Matusova, and P. A. Ivanov
115 The Influence of High-Molecular-Weight Additives on the Flow of a Viscous Liquid
I. T. El'perin, L. Z. Mel'tser, L. I. Levental', V. S. Kovalenko, and V. L. Mel'tser
120 Wall Pressure Fluctuations in the Flow of Dilute Polymer Solutions Over a Rough Surface
A. V. Evtushenko
123 Study of Thermal Conductivity of Boric Oxide
V. I. Berzhatyy and F. F. Lezhenin
127 The Influence of Thermodynamic Parameters on Flow Characteristics Behind the Acceleration Unit of a Liquid-Metal MHD Converter
V. B. Kozlov
136 Analytical Method of Calculating Gasdynamic Parameters in a Half-Closed Volume Taking into Account the Nonuniformity of the Velocity Profile and Turbulent Burning of Condensed Systems
B. T. Erokhin and Yu. I. Fedorov
141 Study of Kinematic and Dynamic Characteristics in a Wake Behind a Plate in an Unbounded Flow
M. S. Fomichev
152 The Structure of the Moisture Field in the Near-Earth Layer of the Atmosphere
A. S. Dubov and E. V. Romanov

Number 2

1 Short-Term Forecasting of the Shore Restructuring of Reservoirs Taking into Account the Three-Dimensional Nature of the Problem (Example: Kiev Reservoir)
S. N. Lisogor
7 Interaction and the Suspension of Coarse Particles in a High-Concentration Flow
Yu. N. Krivenko
18 A Case of Planned Percolation of Liquid from Two Parallel Channels
G. E. Mistetskii
24 Design of Systematic Drainage with Evaporation and Transpiration
G. N. Kononenko
32 Investigation of Unreinforced Flat Slopes and Structures for Regulating the Wave Flow of Sediment in the Kiev Reservoir
E. S. Tsaitts and V. V. Khomitskii
37 Study of Wind-Induced Tidal Oscillations of Sea and Reservoir Surfaces
V. I. Vechorek
40 Discharge of Suspended Sediment in the Littoral Zone of the Kakhovka Reservoir
V. V. Khomitskii
44 Free Vibrations of an Elastic Wall in a Compressible Fluid
L. I. Dyatlovitskii, V. N. Buivol and E. D. Lemberg

56 **Stability of Parallel Elastic Plates between Which Flows a Compressible Fluid**
V. N. Buivol
63 **Solution of the Problem of the Transverse Vibrations of Prismoidal Shells Filled with a Fluid (Plane Problem)**
B. N. Ostroverkh
70 **Estimate of the Energy Expended by the Wind to Maintain Sea Waves and the Drift Current under Various States of the Ocean Surface**
E. K. Byutner and N. Z. Ariel'
76 **Contribution to the Problem of Determining Heat Flukes and Momentum above the Ocean**
A. S. Dubov and N. V. Kucherov
87 **On the Mechanism of Interaction between the Ocean and the Atmosphere during a Storm**
R. S. Bortkovskii
95 **Estimate of the Content of Spray-Drops in the Near-Water Layer of the Atmosphere**
L. Yu. Preobrazhenskii
101 **Turbulent Boundary Layer on a Circular Cylinder**
V.M. Kovalenko and V.M. Shulemovich
112 **Turbulent Boundary Layer on a Rough Cylinder**
V.M. Shulemovich
120 **Structure and Hydraulic Resistance of a Turbulent Swirling Flow in Short Tubes**
V.M. Sobin and A.I. Ershov
126 **A Mathematical Model of the Steady-State, One-Dimensional Flow of the Reacting Gas System $N_2O_4 = 2NO_2 = 2NO + O_2$ in a Channel, Allowing for the Kinetics of the Chemical Reactions, Energy Transfer and Friction**
M.V. Mal'ko and V.B. Nesterenko

Number 3

i **Obituary—Mikhail Dmitriyevich Millionshchikov**
1 **Investigation of Features of the Motion of the Atmosphere at Low Latitudes**
E. M. Dobryshman
7 **The Application of Some Stable Methods for the Numerical Solution of Prognostic Equations**
M. S. Fuks-Rabinovich
11 **The Formation of Atmospheric Action Centers**
P. P. Vasil'ev
27 **The Interaction between Long Waves and the Zonal Circulation in a Baroclinic Atmosphere**
S. M. Sharinova
37 **Approximate Theory of Planetary Waves**
M. B. Galin
43 **Investigation of Sea-Air Interaction**
N. E. Vol'tsinger, B. A. Kagan, D. L. Laikhtman, L. A. Oganesyan, P. V. Pyaskovskii and L. M. Simuni
55 **Experimental Study of the Turbulence Structure of the Air Flow near a Water Surface**
G. E. Kononkova, E. A. Nikitina, L. V. Poborchaya and A. A. Speranskaya
59 **Measurement of Low Levels of Turbulence with a Hot-Wire Anemometer**
V. S. Demin, O. V. Morin, N. F. Polyakov and V. A. Shcherbakov
64 **Interpretation of Hot-Wire Anemometer Readings in a Flow with Velocity, Pressure and Temperature Fluctuations**
V. S. Demin and N. A. Zheltukhin
76 **Some Features of the Propagation of a Discrete Tone Perturbation in a Free Supersonic Jet**
V. N. Glaznev
80 **Investigation of the Effect of Screens on the Characteristics of Turbulent Flow**
V. A. Lebiga and V. V. Chernykh
88 **Effect of the Fluid on the Structure of Turbulent Swirled Gas Flows in Short Tubes**
V. M. Sobin and A. I. Yershov

93 Calculations of Stability of a Turbine Blade in Unsteady Flow Past an Airfoil
D. I. Morozov
99 Concerning the Stability of the Triple-Phase Boundary in Gas-Diffusion Electrodes of Fuel Cells
Ye. A. Ganin and V. P. Postanogov
105 Concerning the Prandtl Mixing Length, and Criteria and Scales of Turbulence
Ye. M. Minskiy and M. S. Fomichev
110 Dynamic Characteristics of Hydraulic Pipelines as Elements of Complex Power Systems
B. F. Glikman
119 Characteristics of Turbulent Flow at the Stabilized Flow Section in a Channel
E. P. Dyban and Ye. Ya. Yepik
125 On the Effect of the Ratio of the Peak-to-Peak Amplitude of Oscillations to the Diameter on Heat Transfer from Vibrating Heaters
O. A. Kremnev, A. L. Satanovskiy and V. V. Lopatin
130 Effect of Deflector Geometry on the Heat Transfer in the Coolant Passages of Deflector Blades
Ye. P. Dyban, A. I. Mazur and V. Ye. Filipchuk
137 An Exact Solution of Equations of the Thermal Boundary Layer at Constant Distribution of Temperature of the Streamlined (Aerodynamic) Surface and Vanishing Prandtl Number
A. Sh. Dorfman
145 Study of Coolant Flow in Man-Made Underground Circulation Systems on Continuous Models by the Method of Electrohydrodynamic Analogy
G. N. Kononenko and A. S. Tsyrul'nikov
149 On Determination of Conditions Corresponding to the Inception of Unstable Film Boiling
A. P. Ornatskiy, V. A. Chernobay and V. N. Savina
154 Effect of Pressure and Subcooling on the Nature of Noise in Pool Boiling of Liquids
A. M. Kichigin and S. G. Povsten'
158 On the Application of the Method of Elementary Balances to Calculation of Unsteady Temperature Fields and Dynamic Characteristics of Surface-Type Heat Exchangers
V. I. Fedorov and Z. A. Martsenyuk

Number 4

1 The Protection of Ports and Water Intakes from Obstruction by Regulation of the Wave Flow of Sediment
B. A. Pyshkin
5 Investigations of the Protection of Ports and Water Intakes from Obstruction by the Accumulation of Sediment from the Windward Side of the Installation
B. A. Pyshkin
12 Investigation of the Velocity Structure in the Bottom Region of a Turbulent Wave Flow
V. L. Maksimchuk and V. S. Nishchuk
19 A Procedure for Analyzing Experimental Wave and Bottom-Velocity Diagrams
N. P. Radchenko and G. L. Baranov
25 Concerning the Theory of Water-Air Jet Engines for Hydrofoil Propulsion
I. M. Chernyy, N. A. Prikhod'ko and Yu. G. Mokeyev
36 A Study of Hydrodynamic Forces Attending Sinusoidal Vibrations of a Disk
G. V. Logvinovich and Yu. N. Savchenko
42 Determination of Nozzle Discharge Parameters for a Gas-Liquid Mixture
Yu. K. Vitoshkin
47 Velocity and Pressure Control in Open-Loop Water Tunnels
A. P. Kulak
55 Vibrations of a Cylindrical Shell in a Liquid at the Interface (Two-Dimensional Problem)
V. N. Buyvol
63 On the Properties of Induced Vibrations of a Hose with a Flowing Fluid
O. A. Goroshko and L. D. Titova

68 **The Structural-Continuum Theory of Dilute Suspensions of Rigid Ellipsoidal Particles**
Ye. Yu. Taran and Yu. I. Shmakov
74 **Self-Similar Solutions for a Three-Component Axisymmetrical Flow of a Viscous Fluid**
G. I. Nazarov and A. K. Yanko
79 **On Integration of the Navier-Stokes Equations for a Case of Axisymmetrical Vortex Flow of an Incompressible Fluid**
G. I. Nazarov, N. G. Puchkova and A. K. Yanko
86 **On Calculating the Frictional Drag of Cylindrically-Shaped Bodies of Revolution**
V. S. Maksimov
92 **A Laminar Incompressible Wall Jet on a Moving Plate**
R. A. Antonyuk
97 **The Flow Mechanism of a Liquid Film Forming during Condensation of Steam on a Horizontal, Finely-Finned Surface**
N. B. Zozulya, V. A. Karkhu and V. P. Borovkov
102 **The Laminar Incompressible Boundary Layer with Variable Dynamic Viscosity**
V. V. Skripachev
106 **A Study of Turbulent Flow Structure of Dilute Polymeric Solutions by Means of Photography in Unsteady-Flow (Blowdown) Water Tunnels**
I. K. Nikitin, N. G. Poznaya and A. V. Dzevaltovskiy
113 **Velocity Distribution and Frictional Drag in Turbulent Wall Flow of Dilute Polymeric Solutions**
I. K. Nikitin, N. G. Poznyaya and A. V. Dzevaltovskiy
121 **Hydrodynamic Principles of Development of Dynamometer Equipment**
Yu. M. Andreyev
129 **The Model Tank of the Hydromechanics Institute of the Ukrainian SSR Academy of Sciences**
N. V. Shaybo and L. I. Yankovskiy
135 **Test Facility for Investigating the Effectiveness of Rain Protection by Means of Air Jets**
A. M. Mkhitryan, P. S. Laznyuk and L. P. Golyakov
140 **Analytical Study of Fluctuations of Gas-Liquid Mixtures in Short Pipelines**
I. M. Fedotkin and V. A. Zhurakhovskiy
146 **The Effect of Nonuniform Inlet Conditions and Secondary Flows on Flow Variables in Channels with Aribitrary Swirl**
Yu. O. Shvets and Yu. N. Zdorenko
153 **A Study of the Formation of Gas Flows Downstream of Annular Swirlers**
A. A. Al'bitskiy and V. S. Miller
156 **The Rheological Equation of State for Dilute Solutions of Rigid Freely Permeable Chain Macromolecules**
Ye. Yu. Taran
160 **Study of the Partial Vapor Pressure of a Water-Butanol-Pencillin Solution**
V. N. Mudrikov, T. B. Kigel' and E. S. Dolinskaya
165 **Design of Magnet Systems for Liquid-Metal Pumps**
S. A. Gamzayeva, S. S. Romanovich and L. V. Fedchun
171 **Some Results of a Study of Two-Phase Flow by the Single-Beam Fraunhofer Holography Method**
I. I. Paleyev, F. A. Arafonova, V. N. Bykov and M. Ye. Lavrent'yev

Number 5

1 **Operation of a Water-Jet Engine with an Ejector Shroud**
G. V. Logvinovich
9 **A Numerical Solution of the Problem of Cooling of a Hot Gas Bubble in a Liquid**
V. M. Ivchenko, N. A. Prikhod'ko and V. S. Siryy

16 **Control of Laminar Flow Past a Wing in Free Flight**
V. B. Zozulya and O. R. Cheranovskiy
21 **Stability of the Laminar Boundary Layer on a Deformable Membrane, Supported on a Layer of an Inviscid Incompressible Fluid**
V. V. Skripachev
27 **The Laminar Boundary Layer in a Compressible Gas at a Thermally Insulated Surface with Suction**
L. F. Kozlov and V. G. Mizyuk
35 **The Laminar Boundary Layer with Allowance for Vibrational-Dissociative Relaxation of the Gas and Variability in Catalytic Nature of the Surface**
S. B. Koleshko and Yu. P. Lun'kin
42 **Turbulization of the Boundary Layer on a Flat Plate by Injection of Air Through Slots on Its Surface**
I. T. Shvets, Ye. P. Dyban, I. G. Prikhno and V. M. Repukhov
46 **An Estimate of the Effect of Boundary-Layer Turbulence on a Pressure Sensor at Low Free-Stream Velocities**
L. F. Kozlov and Yu. G. Slesarev
51 **The Inlet Region of Turbulent Pressure Flow in a Flat Passage**
S. A. Yefremenko
59 **Local Properties of the Velocity Distribution and the Hydrodynamic Stability**
M. A. Gol'dshtik, V. A. Sapozhnikov and V. N. Shtern
64 **Some Characteristics of an Air Jet Discharged into a Blocked Passage**
Ye. P. Dyban, A. I. Mazur and E. Ya. Epik
70 **Nonisothermal Flow of a Liquid in the Wake of a Body**
V. P. Kashkarov and N. L. Cherevko
74 **Natural Oscillations of Slowly Rotating Fluids in Vessels**
V. S. Gontkevich
82 **Concerning Wave Processes in a Shell-Gas System**
V. N. Buyvol
88 **Fluid Flow in a Cylindrical Passage in the Presence of Recirculation**
A. A. Al'bitskiy
93 **Calculation of Aerodynamic Characteristics of Bodies with Relatively Large Trailing Sections**
V. M. Yepifanov
96 **Determination of the Dynamic Shape Factor in Calculation of Convective Heat and Mass Transfer in Non-Newtonian Fluids**
Z. P. Shul'man and N. D. Kovalevskaya
103 **Approximate Solution of Velocity and Thermal Boundary Layer Equations for Non-Newtonian Fluids at Arbitrary Pressure and Surface-Temperature Gradients**
A. Sh. Dorfman and V. K. Vishnevskiy
109 **Jets of a Non-Newtonian Fluid with a Free Surface**
V. P. Kashkarov and B. M. Mikhaelyan
112 **On the Size of Molecular Clusters Reducing Hydrodynamic Drag in Polymeric Solutions**
A. M. Kudin
118 **Flow of Dilute Polymer Solutions in a Flat Duct**
Yu. I. Shmakov, Ye. Yu. Taran and P. B. Begoulev
124 **Measurement of the Volumetric Concentrations of Components in a Two-Phase Flow by Conductometric (Electrical Conductivity) Analysis**
A. F. Babitskiy and A. M. Kravchenko
129 **Flow of Dilute Suspensions of Rigid Ellipsoidal Particles Between Rotating Coaxial Cylinders**
Yu. I. Shmakov and T. G. Pilyavskaya
133 **On the Feasibility, in Principle, of Transforming the Kinetic Energy of an Ionized Gas Flow into Electricity**
O. S. Vorob'yev, V. B. Yeliseyev, A. M. Yermilov, V. D. Zakharenko, I. V. Orfanov and S. V. Ryabikov
138 **Semiempirical Model of Turbulent Transfer Applied to Certain Anisotropic Flows**
A. T. Snufraev
141 **Test of the Radar Method of Defining Ocean-Wave Elements**
V. F. Evmenov, I. V. Kozhukhov, N. T. Nichiporenko and G. D. Khulap
146 **Results of Full-Scale Studies of an Experimental Seawall**
A. V. Mishin and V. R. Pustovoit

152 **Variations in the Height of Wave Run-Up on a Sandy Beach**
E. S. Tsaits and V. V. Khomitskiy
157 **The Use of a Mole as a Sediment-Retaining Structure**
V. I. Vechorek
162 **Laboratory Studies of Single-Slope Submerged Breakwaters**
V. B. Drozdov, V. A. Kalmykova and N. K. Chelbina
166 **Longshore Currents and Sediment Motion in the Coastal Zone of the Sea of Azov**
V. A. Mamykina
171 **Some Prerequisites and Features of Using Flat, Wave-Resistant Slopes in the Construction of Earth Embankments and Dikes in Turkmen SSR**
Kh. A. Akmuradov and E. Kh-A. Ishanov

Number 6

1 **The Influence of Clay Fraction on the Basic Parameters of the Hydro-Transport of Fine Free-Flowing Materials**
N. A. Silin, V. M. Karasik and V. N. Kondakov
6 **Degree of Local Saturation of a Flow by Suspended Matter and Its Relation to the Volume Concentration**
S. I. Kril' and E. L. Belilovskiy
12 **Energy Losses in a Two-Phase Flow Containing Coarse-Grain Material**
Yu. N. Krivenko
20 **Distribution of Average Longitudinal Velocities in Flows with Coarse-Grained Materials**
Yu. N. Krivenko
27 **Structure of the Velocity Profile of a Suspension-Bearing Flow**
Yu. K. Vitoshkin
33 **Experimental Studies of the Interaction between Drops of Liquid**
G. L. Babukha, P. T. Smenkovskaya and A. A. Shraiber
37 **Calculation of the Kinematic and Dynamic Characteristics of a Rectilinear Flow of Non-Newtonian Fluid in a Circular Channel**
V. G. Litvinov and A. I. Ovsyannikov
43 **Numerical-Analytical Solution of Some Problems in Planned Filtration of Liquids to a Discontinuous Drain**
I. M. Velikoivanenko, I. I. Lyashko and G. E. Mistetskii
54 **The Influence of Thermodynamic Conditions on the Gas-Permeability of Rock**
A. I. Fialko and A.S. Tsyrul'nikov
59 **Determination of the Camber of Axial Rotor Blade Profiles taking Flow-Lag Angles into Account**
G. A. Svinarev
68 **Flow Deviation Angles at the Exit of the Radial-Flow Stator Cascade of Hydraulic Turbines**
Yu. I. Fedulov
74 **The Feasibility of Using Plane Blades in Hydraulic Converter Rotors**
Yu. S. Leites
81 **Equation of Thrust for Hydrojet Rocket Engines**
V. M. Ivchenko
92 **Concerning the Dynamics of Bubble-Type Flows in a Gas-Liquid Nozzle**
I. M. Chernyy
100 **Surfacing of a Cavity in a Ponderable Fluid**
V. N. Buyvol and Yu. R. Shevchuk
104 **Concerning the Equilibrium of a Taut String in a Flow**
N. V. Saltanov and L. I. Yankovskiy
110 **Flow Development and Friction Coefficient Near Stationary Blading Producing Turbulent Wall Jets with Symmetrical Outlet Velocity Distribution**
V. A. Prusov

117 **Characteristics of a Plane Electrohydrodynamic Wall Jet**
Yu. I. Amasovich
121 **The Turbulent Boundary Layer on Continuous Moving Smooth Surfaces**
R. A. Antonyuk
128 **On the Stability of an Axisymmetric Jet of an Ideal Fluid**
V. M. Yares'ko
132 **Turbulent Mixing at the Interface of High-Velocity and High-Temperature Cocurrent Gas Flows**
P. I. Kopeyka and S. K. Aslanov
139 **Discharge of Viscous Fluid Through an Annulus Formed by a Vibrating Circular Bar and a Cylinder**
O. I. Inozemtsev, B. Ya. Tat'yanchenko and B. G. Kholin
144 **Experimental Study of a Hot-Air Jet Anti-Icing System**
A. M. Mkhitaryan, V. S. Maksimov, A. V. Zelen'ko and V. A. Prusov
151 **On the Modes of Icing of Symmetrical Lifting Surfaces**
A. M. Mkhitaryan, V. A. Kas'yanov, L. P. Golyakov and Yu. G. Koval'
157 **On the Theory of Alternating-Current Electrofluiddynamic Converters**
V. A. Kas'yanov and A. A. Mkhitaryan
163 **Experimental Investigation of the Hydrodynamic Stability of Laminar Boundary Layers at Solid Surfaces in a Water Flow**
V. V. Babenko and L. F. Kozlov
167 **Stability of the Laminar Boundary Layer Above a Membrane Supported on a Layer of Viscous Incompressible Fluid**
M. M. Dolinskaya and V. V. Skripachev
171 **On Squire's Theorem in the Study of Hydrodynamic Stability of Plane-Parallel Flows of Incompressible Fluids about Deforming Boundaries**
V. V. Skripachev
